

Equipping Families for New Possibilities

Adoption Discovery is the Simple Solution

Did you know?

- Adoption can cost as little as \$0.
- Adoption can be finalized in as little as 9 months.
- If only 7% of the Christians in the world adopted a single orphan, there would effectively be no more orphans.

Through our 7-week small group study, group members will move step-by-step along the adoption process. Each week builds on the next, improving understanding and perspective. The goal at the end of the 7 weeks is for families to be united in their desire to adopt and to have a clear picture as to what adoption will look like for them thus decreasing the adoption dropout rate and providing homes for the millions of orphans worldwide.

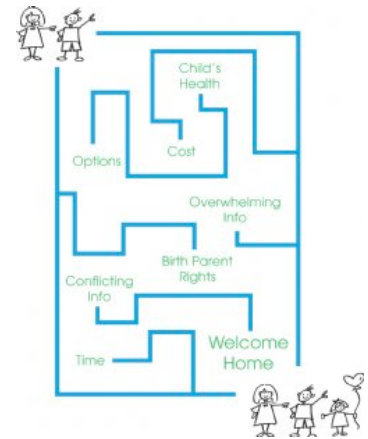

Adoption Discovery is a straightforward curriculum that gives you the information you need in the context you need it, all within a community of support. Adoption Discovery groups meet once a week for seven weeks, in which time you learn your options as a prospective adoptive parent.

In this educational series, small groups of prospective adoptive parents gather to watch brief DVDs, engage in Q&A with experts on topics such as costs, medical history, the home study and post-adoption issues.

Adoption Discovery gives you:

- A trained group leader to guide you and answer your questions.
- Clear, straightforward information about all the options available to you.
- Self-work that will help prepare you for the huge life change adoption represents.
- A group of people just like you who can help you along the way.

Navigating the maze of adoption can be quite difficult.

Often, information about adoption can be unclear, unavailable, or sometimes even incorrect.
